

The all-new Convo

Built on a brand new platform, our web app is fast, intuitive and gives you more control. Quickly glance at highlights, see critical conversations and make faster, smarter decisions.

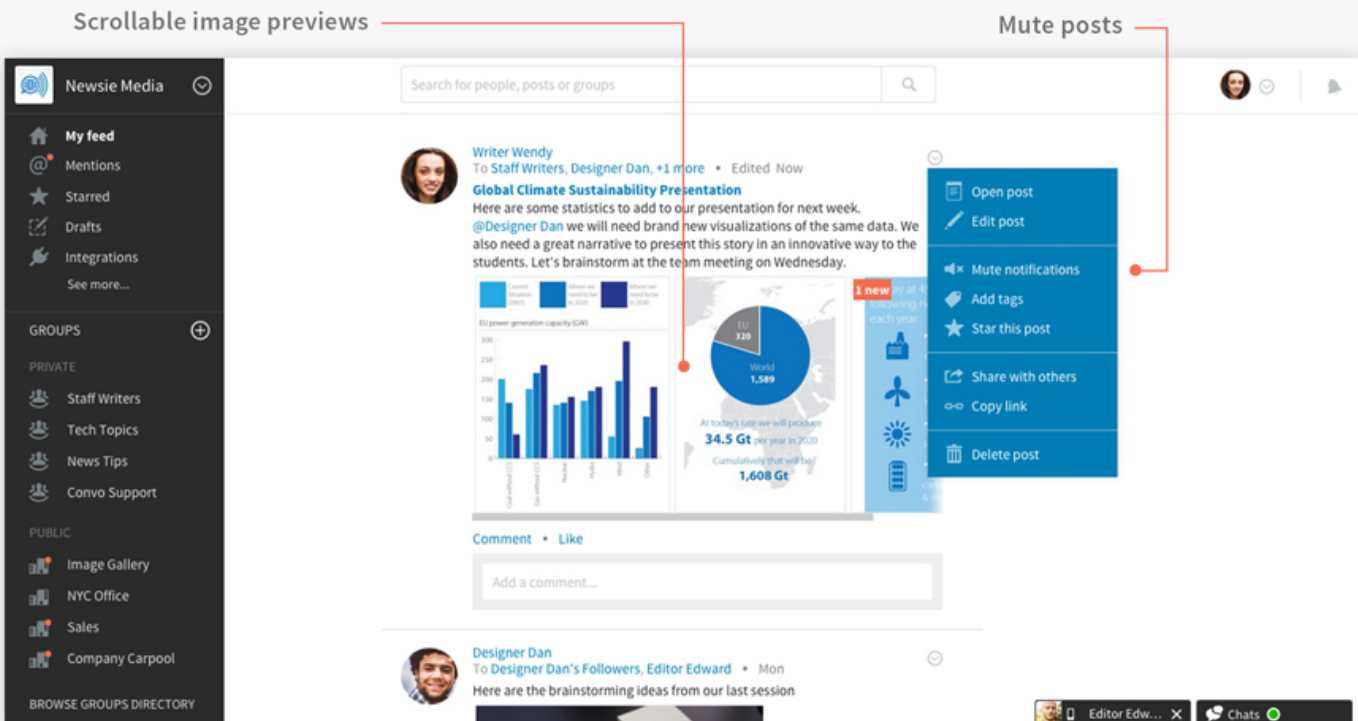

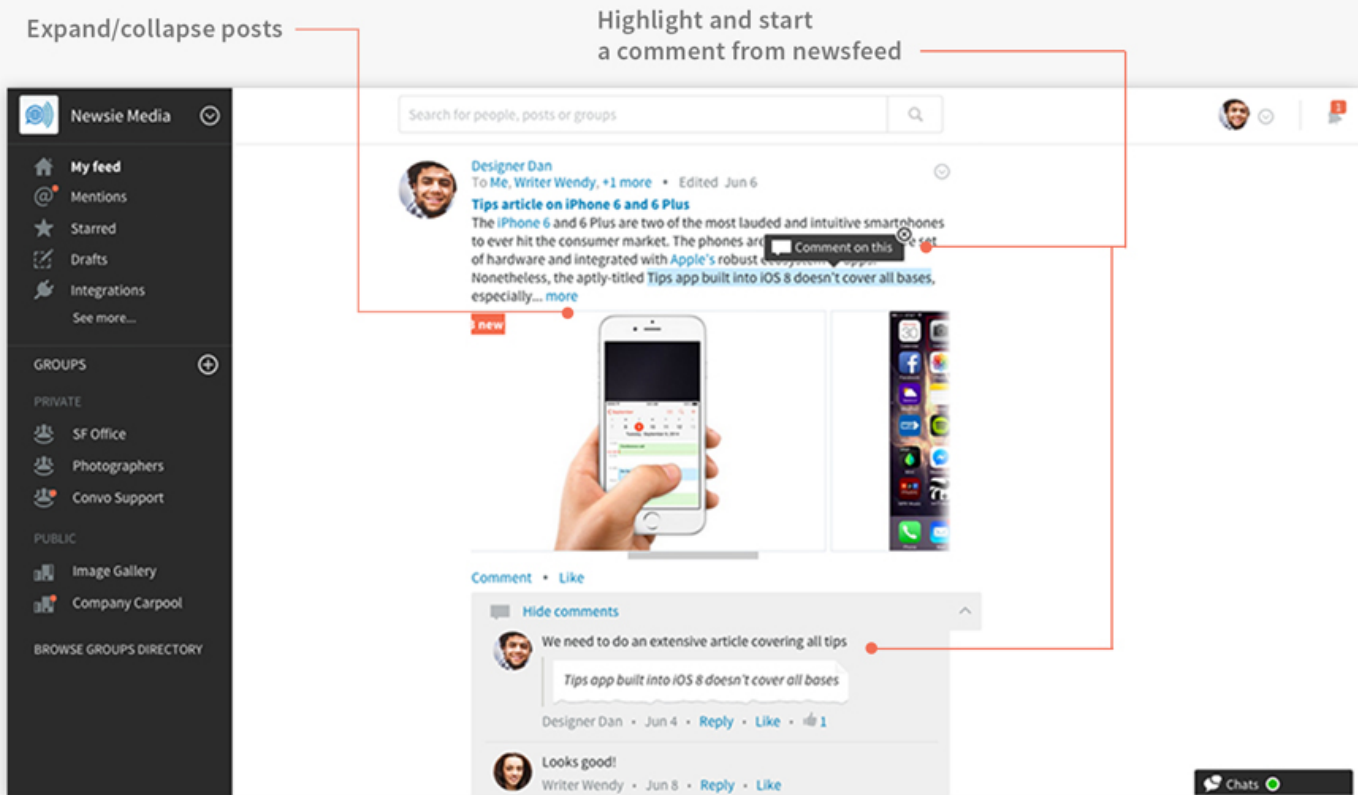

Intuitive UI

Quickly access your draft posts, public and private groups, and chat history.

Powerful Newsfeed

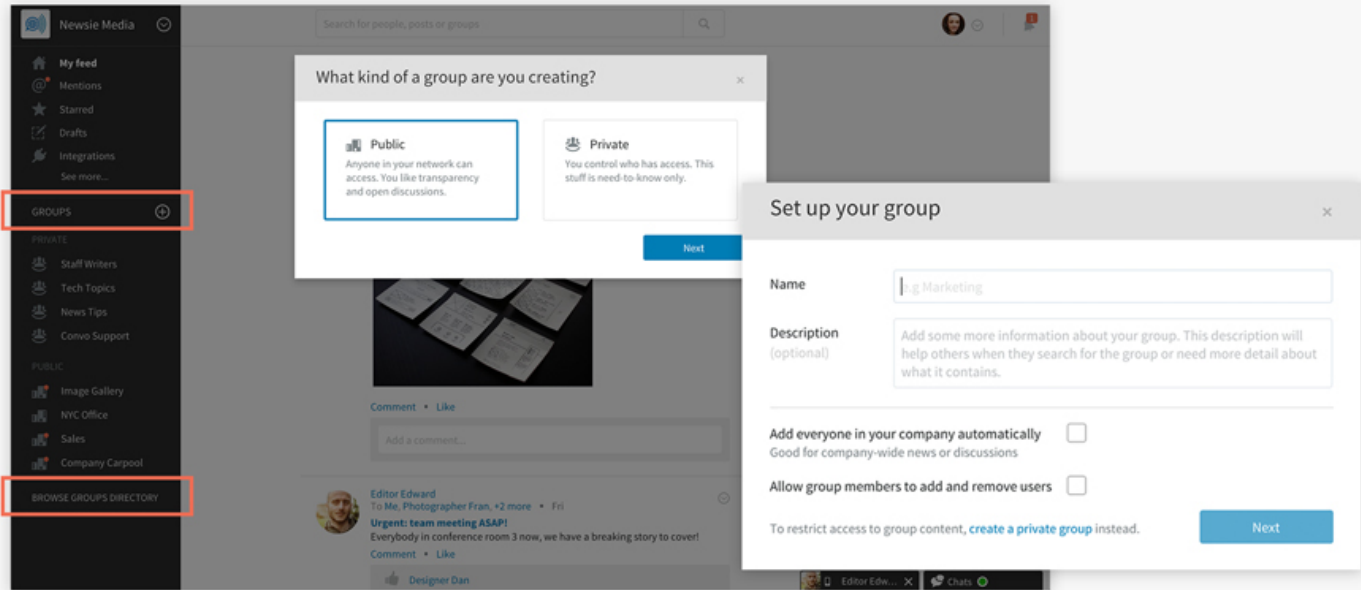

With infinite scroll, new expand/collapse ability, and large image previews, get recent updates in the most efficient way.

Additional features: GIF support, Retina display optimization, infinite scroll

Enhanced Controls

Create and manage groups directly from the side navigation panel. Add users, change privacy, permissions, and notification settings.

Additional features: Browse group directory, add groups to directory, add members automatically

Integrations

Post content from your favorite third-party tools directly to Convo using Zapier.
